

Ignore the dates due and assigned. ESchool, our gradebook program, automatically organizes by date. In an effort to keep all assignments together DIRECTLY BELOW the skill that was being assessed, I have to organize dates in **groupings according to "skills."** If I did not organize it this way, ESchool would automatically rearrange, and it wouldn't be clear what assessments went with which skills.

The **yellow highlighted areas** are labeled for the **overall mastery** of that particular skill so far. These sections take the average of the number scores (1-4) that was shown on the assessments that tested each particular skill. Refer to the "Standards Based Grading Scale" to see the "percentage value" of each number score.

Highlighted in green are the student's number scores based upon the **level of knowledge they demonstrated for that particular skill on that particular assessment.**

Highlighted in yellow are the overall percentages of mastery that the student has shown they understand for each **skill**.

If a box is blank, it is because these skills have **NOT YET BEEN ASSESSED** or the assessment has **NOT YET TAKEN PLACE.**
